Director  
Central Intelligence Agency  
ATTN: Major General [redacted]  
2430 E Street, N. W.  
Washington 25, D. C.

25X1

Dear Sir:

Reference is made to conversation of December 16 between [redacted] and [redacted] of your agency and Lt. Col. [redacted] of this Directorate, concerning a requirement for RB-6 Radio Sets.

25X1

25X1  
25X1

A total of fifty (50) each RB-6 Radio Sets plus associated equipment including fifty (50) hand generators (GN 58) and fifty (50) instruction books are needed by the Department of the Air Force for use by Air Rescue Service. The sets will be used by the 14th Air Rescue Group in support of Strategic Air Command crew recovery training exercises in Europe. Since the recovery exercises in Europe. Since the recovery exercises start in January 1955 there is an urgency of time. It is requested, therefore, that these sets be obtained from stocks now available under your control.

Previously this year your agency delivered thirty (30) RB-6 Radio Sets for a different requirement. Our letter of request was dated July 8, 1954. The authorization for reimbursement was provided under GNS 54-234-29. It is requested that this control number be disregarded and that the thirty (30) sets which were delivered in July 1954 and fifty (50) sets to be delivered now be funded from a single source. Reimbursement for the entire eighty (80) sets will be made upon your submission of Standard Form 1080 to Headquarters, Air Materiel Command, Attention: NREC, Dayton, Ohio, citing funds available in GNS 55-234-251E.

A representative of this Directorate will contact your agency further to coordinate the details of delivery of the fifty (50) additional sets requested.

Sincerely,

S/
